

Description of Automatic Laser Pointer Cat Toy

Audience: General

DANGER: Possibility of laser damage to retinas. Never look directly at the laser.

Figure 1: Automatic Laser Pointer Cat Toy

Physical Design: The Automatic Laser Pointer Cat Toy is an approximately nine-inch-tall, white, plastic object, with a similar shape to a chess piece, as shown in Figure 1. There is one on/off push button towards the bottom of the device. The top of the device contains a rotating mirror that reflects a laser beam onto the floor and walls in a random pattern. (CAUTION: Avoid looking directly at this component of the device to avoid eye damage.) This device requires two AA batteries in the battery compartment located at the bottom of the device.

How to Use:

1. Place the device on a flat, elevated surface, such as a table.
2. Press the on/off button to turn on the laser.
3. Press the on/off button a second time to begin the random motion of the laser beam.
4. The device will turn off automatically after 30 minutes.
5. Press the on/off button to stop the random motion of the laser beam.
6. Press the on/off button a second time to turn off the laser.
